

Mora Proud

Headteacher's Highlights

Welcome back! I hope you had a fabulous holiday and a good rest. I am thrilled to announce that Mora has secured the School Games Platinum award. This is a significant achievement as it is the highest level within the School Games Mark, which recognises Mora's commitment to physical education and competitive sport.

Thank you to Ernest, our wonderful coach, Ms Kowalska, our P.E. lead and all the staff for their commitment to physical education.

Miss Baylis

Partnerships

As part of their support for our community, the Dental Wellness Trust has provided Mora children with dental support for the past 5 years.

Dentists have given up their time, for free, to check our children's teeth and write to parents providing clear recommendations where appropriate. Their last visit was at the end of the school year and we look forward to welcoming them again this academic year.

Enrichment

Drama is a key area that we are developing here at Mora. It is often used in class to deepen understanding of a text or a specific topic and we have been thrilled with our performances by both year 6 and Disney club.

This academic year we will be taking our next step to develop our drama curriculum. Mr Richmond, who studied Musical Theatre at the Guildford School of Acting, will be leading drama lessons in year 1, 2 and 3.

We are excited to be growing this department in Mora and look forward to watching the impact on our pupils.

Parent Voice

Each issue we share the words of one Mora family...

'We're really delighted with the work being done at Mora. Our son has been given so many chances to enhance his enjoyment of school through athletics, chess, ballet and now brick club. The range of activities is quite astonishing. We were looking for a school that would develop the 'whole child' rather than just 'academics at all cost' and could not recommend Mora enough to other parents.'
